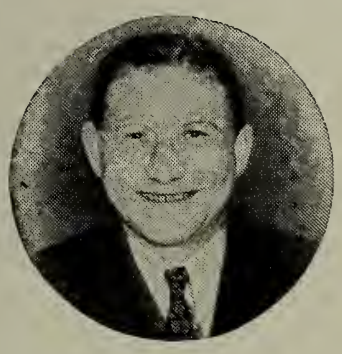
"The Coin Machines Merry-Go-Round"

By Bill Gersh



QUIET

This is the time for conservatism. For a more quiet industry. Eliminate "flash". Practice more careful, quiet business methods. Most certainly this is not the time for flash or even to discuss bankrolls. Not the time to gather large crowds in front of offices and discuss business on sidewalks. Not the time to shout about the "take".

The men engaged in this industry at this time are much better off to proceed carefully, conservatively, as their bankers do. As is well known, only a handful of men, comparatively, are now operating the machines of this industry from coast to coast. There is no value in attracting the attention of outsiders to this fact. Stop attracting unnecessary attention to yourself and your firm. There are many,many reasons why. It would take a great many columns like this one to write about all of them.

This is the time to clean up all trucks and cars. Some of these feature extremely large lettering and flashy drawings of machines in colors. It is just as well that with tires and gasoline being so used (for what certain government agencies prefer to call a "non-essential industry") not to have your business so conspicuously flashed in front of the general public. It is just as easy to conduct business without such flashy trucks. Just as easy for servicing, collecting and general hauling operations. Loud, flashy lettering helps very little to give better service.

Many have large, open display windows. These were attractive during the period preceding the war. They may prove all the more necessary when the war is over. But at this present time, they are simply of no value whatsoever to the average man in this industry. These large, open display windows, featuring machines only give the public and its officials an inside, unnecessary peek, into this business. Having your industry declared "non-essential", it is best that such windows be completely covered. Venetian blinds can make these windows appear just as attractive. Some like paint. But whatever is done, it is certain most will agree that this is not the time to attract attention to window displays of coin operated equipment of any type.

One type of carelessness which has always created comment has been that of many firms allowing their men to drop off machines on the sidewalk in front of their quarters. This even developed to the stage where, many times, mechanics would actually repair the machines right there on the sidewalk. No other business uses such tactics. The businesses that do aren't considered the type the average man in this industry wants to be connected with. This bit of thoughtlessness is something that should most definitely be eliminated by those that have been guilty of it.

Certain government agencies are rather disturbed by the fact that this industry employs a number of highly skilled mechanics. They feel that these men should be in war plants. The majority of such men are already in war work. More are going each day. Therefore it surely isn't necessary to feature the fact that the few of these men who are left, and who are so extremely necessary to the continuance of this business, aren't as yet at work in some war factory. Most of the mechanics want to remain right where they are. They realize that when the war is over they will probably be in charge of large repair departments. They also realize that they are extremely necessary now and want to prove their loyalty to their employers who aided them when jobs weren't so free and easy. They want to insure themselves for tomorrow. They want to work where they know they can be assured of a livlihood for years to come and perhaps even go up the ladder in their organization to a much better position when the war is won.

To keep your valuable, skilled men with you, do not attract undue attention to yourself and your firm. Work quietly, conservatively, without fuss or fanfare. This is not the time to have the type of suggestive calendars printed to attract attention to your firm. This is not the time to even "flash" the name of your firm too prominently. Your customers surely know you by this time. Certainly they know where to reach you when they need you.

When your machines are in transit, a few dollars invested in a tarpaulin will help tremendously to keep attention away from them. Cover machines in transit. Keep them covered. Work quietly. Be sure that some "blue-nose" in your town doesn't see any coin operated equipment in transit, using up rubber and gasoline, and then have

"The Coin Machines Merry-Go-Round"

him start a "crusade" against you. There is no need to flaunt in his face the fact that you do use truckmen and skilled mechanics, etc. He will live just as happily not knowing these facts.

With the tremendous drive now on against juvenile delinquency - keep your machines away from where children can get to them. Get your location owners to work with you in this respect. Make sure that you prominently display signs that advise the public that children are absolutely and definitely not welcome at these games. If you are running money machines, then most certainly you want to pay even more careful attention to this fact. Remember, the nation's leaders are back of this drive to curb juvenile delinquency and you want to work with them most wholeheartedly. Thank goodness, coinmen have proven that their equipment does not foster juvenile delinquency and have worked to aid the authorities in every instance.

This is the time for more quiet conservatism than ever before in the history of this industry. Quiet will prove of tremendously great value to all concerned. You have your trade medium here. You can tell your story here - quietly and confidentially. It was for that very purpose that The Cash Box was created. The Cash Box realized long, long ago, that the best actions for all the men in this industry for their future welfare, as the war came into being, was to adopt an attitude of quiet conservatism and to communicate with each other thru a confidential, truly trade, medium. The great growth of The Cash Box is in itself convincing proof that all the leaders in this industry have also realized this necessity. Spread this one word thruout all the industry - "QUIET".

OPA ADVISORY COMMITTEE

We are waiting for the appointment of OPA's "advisory committee" from among the members of this industry. This will naturally prove of great interest to all. It is also the hope of all in this business that the names of the men chosen for OPA's "advisory committee" will be made known prior to the Second Wartime Conference. These men can then be invited to be present at the Conference and give the trade their ideas and suggestions for a cure in regards to the dual regulations now in force for this industry - GMPR and MPR-429.

A regulation written specifically and exclusively for this industry is most necessary. It is generally believed, as has already happened in other industries, that when such a regulation is written, that it will be based on the March, 1942, prices that were in effect for used equipment. This would bring price uniformity to all the trade. Such a special regulation could be so arranged that prices for every known type of coin operated equipment would be incorporated into it. All would then be able to guide themselves accordinly.

Already some coinmen have met with the heads of the Consumer's Durable Goods Division of OPA and have listened to the thoughts of these men. These coinmen have already given their views. There is no doubt that some of these will be chosen for the "advisory committee". These men will find themselves shouldering a huge burden for all in this industry. They will not only have to really know this industry in all its many aspects, but they will also have to enjoy a very clear picture of its scope from coast to coast as well as its many great peculiarities. They will certainly have to well understand its problems.

Most assuredly they will have to be unusually well acquainted with each and every type of machine that has been manufactured and what is required for the successful continuance of business with each type of machine. This is no job for "the inexperienced". It is a mighty big job for anyone to tackle and regardless of how many will be placed on the "advisory committee" by OPA they will surely need the help of all this industry to do a real job. That is why we hope we shall know who they are in time to invite them to the Second Wartime Conference.

25¢ CHUTES FOR CIGGIES

Cigarette machine operators anticipating an increase in cigarette prices due to the new increased excise tax proposal by the Treasury Department are planning to use 25¢ coin chutes. These will allow them to vend the pack of ciggies with the proper change contained in it at the new, increased prices. For sometime ciggie ops have known that the Treasury Department contemplated an increase in excise taxes for cigarettes. This was but a natural move on the part of the Treasury Department which is desperately seeking additional revenue.

Some ciggy firms have found that certain machines are easily adaptable to the 25¢ chutes. Others are a problem. The new type machines which did not feature the possible need for 25¢ action, but could use the 20¢ combinations, will require a great deal of mechanical work. Perhaps a complete revamp will prove necessary to keep them on locations. There is no doubt, tho, that once again the cigarette machines division of this industry will demonstrate its great ingenuity in curing whatever problems may arise.

"The Coin Machines Merry-Go-Round"

HISTORICAL

We, here at The Cash Box, believe that our Wartime Special issue (which will close on November 10th for all printed full and half pages) will prove truly historical. It will act as a living memento of World War II. It will most definitely remain as a symbol of the inner workings of this industry during one of its most trying periods during this war. It will bring to the fore, and possibly for the very first time, the names of many firms who will present their plans for the post war era - and whose plans we may live to see carried out in full. It will open a new and better path to the future. It will be an issue that everyone is going to put away in a safe place and someday show to a great many newcomers who will have entered into this industry on how and what and why this industry did to help bring these new men into it - during World War II - which is history in itself.

THE WARTIME CONFERENCE

This past week we received many interesting letters in regard to the Second Wartime Conference. As we digest these letters, we shall use parts of them in arranging the program for the meet. We believe that this is one time when a great many in this industry have something to talk about. To get a lot of problems and puzzlement off their chests. And all want to know just where they stand. What the future holds for them in this business.

We know that the crowd we first expected to attend, has already been many times multiplied. We heard from one man in the Midwest who advised us that in talking with friends and customers who dropped into his quarters for a visit, that he found each and everyone of these men preparing to be present. He writes, "I know that you are going to be tremendously surprised by the large numbers of people who are alrady planning to attend."

Well, frankly, we're not surprised. We're not surprised because we believe that these men are attending because they realize this is really important to them and to their future in this industry. They realize that there will be present leaders from every state in the union, and that these men may have the answers for a great many of their most pressing problems.

They also want to know how others feel about some of the things they are enduring at this time. They want to know about some of the cures that may have already been effected for some of the problems they are now first attempting to cure. They also want to say, "hello". They want to talk things over. They feel sure that someone is going to give them some information that will make the trip more than worthwhile, many times over again.

The Second Wartime Conference is gaining momentum each day. It is attracting men to it that never before believed a true business meeting would ever attract them. It is winning the acclaim and support of the most progressive men in this industry. Daily they write to tell us they have never before worked so hard to get people to come to any meet.

Remember, the Second Wartime Conference is but 4 short weeks away. Make your hotel reservations now. Buy your round trip tickets immediately. Clear the decks at your office so that you will be prepared to hop on the train and get away for a few days knowing that your business is under complete control. If you intend to stay on a few days longer to visit with manufacturers and friends, advise the hotel of this fact. Be sure of your accommodations in advance.

SPEAKERS

Prior to arranging our program for the three days of the Second Wartime Conference we should like to hear from subscribers as to just whom they would prefer to have speak to them before the gathering. The music machines men may want to hear from someone outstanding in their division of the industry. This same applies to console, arcade, pinball, merchandisers, and other coinmen who will attend. Surely, each and everyone has some preference in the matter of speakers. And just as surely some of these speakers can bring home new ideas and methods and perhaps give promise of the coming coin machines world of tomorrow which all would like to hear. It is to your interest to cast your ballot now. Write us. Your communications will be held in strict confidence. It would tremendously help us in arranging the program for the three days of the meet.

MAKE THIS YOUR SLOGAN:
"I'LL MEET YOU AT THE SECOND WARTIME CONFERENCE AT THE MORRISON HOTEL IN CHICAGO!"

Odd Coins

By Joe Orleck

A (1943) COPYRIGHTED FEATURE OF "THE CASH BOX" 381 FOURTH AVE., NEW YORK

We would like to suggest to our subscribers that they check over their equipment, and if they have any that they aren't using (or even think it has no value) to take advantage of their advertising privilege, and let the rest of the country have the opportunity to buy it. Many territories can use equipment that can't be used in others. Keep the flow of all equipment to market as much as possible. By helping others, they may be able to help you.

L. C. BRISTOL, Up State Amusements, Watertown, N.Y. offers arcade equip. and wants music....L. MILLER, Miller Vending Company, Grand Rapids, Mich. offers slots....J. R. GERBER & GLASS
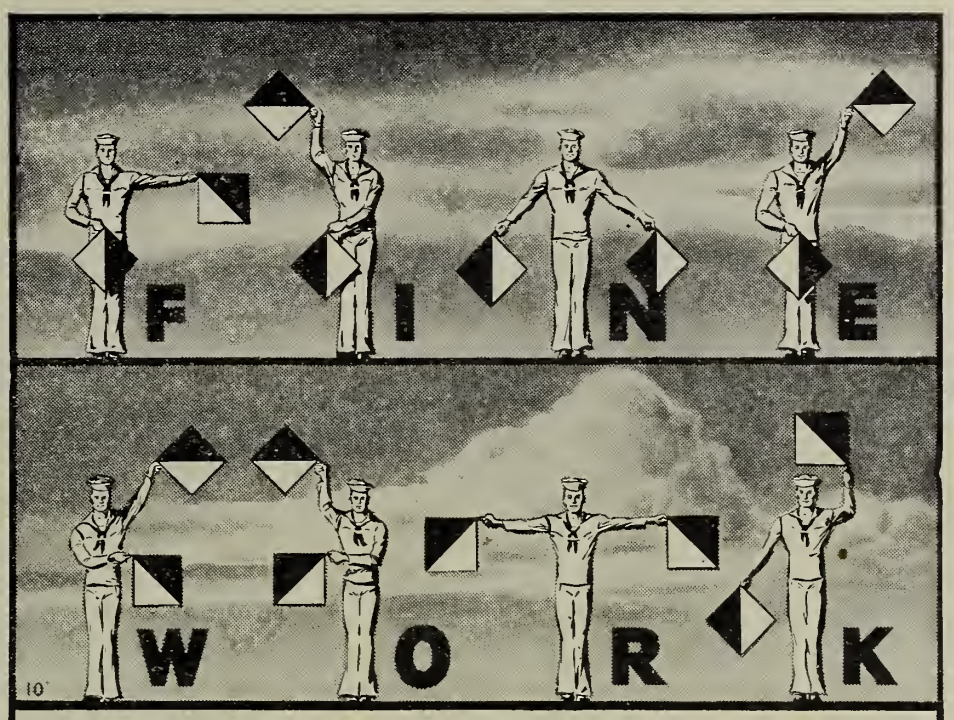
914 DIVERSEY BOULEVARD CHICAGO, ILL.



ON BEHALF OF THE MEN OF THE FLEET, WHO GREATLY NEED THE XXXXX YOU MANUFACTURE, I THANK YOU FOR THE SPLENDID PRODUCTION RECORD YOU ARE SETTING. I AM SURE YOU WILL MAKE EVERY EFFORT TO INCREASE EACH DAY'S OUTPUT; FOR THE MORE YOU MAKE THE BETTER THE NAVY CAN FIGHT. I ASSURE YOU THAT YOUR FINE WORK IS APPRECIATED AND NECESSARY—

REAR ADMIRAL W. H. P. BLANDY, CHIEF BUREAU NAVY ORDNANCE,

Reproduced above is a telegram received by the Bally* organization . . . proof that the skill of Bally* engineers and workers, developed in the peace-time production of games and venders, is a valuable asset to America in time of war. Today the Bally* organization — which created *Ballyhoo, Airway, Rocket, Bumper*—is busy building battle equipment for Uncle Sam's Army and Navy . . . equipment which is helping to speed the day of glorious victory.

You, too, can speed the day of victory and hasten America's return to peace and prosperity . . to the *Ballyhoos* and *Airways* of tomorrow, the *Rockets* and *Bumpers* of a brilliant future. Buy Victory Bonds today, tomorrow and every day— 10 per cent *plus*!

* *War products manufactured by the Bally organization are on contracts in the name of Lion Manufacturing Corporation, of which Bally Manufacturing Company is a division.*

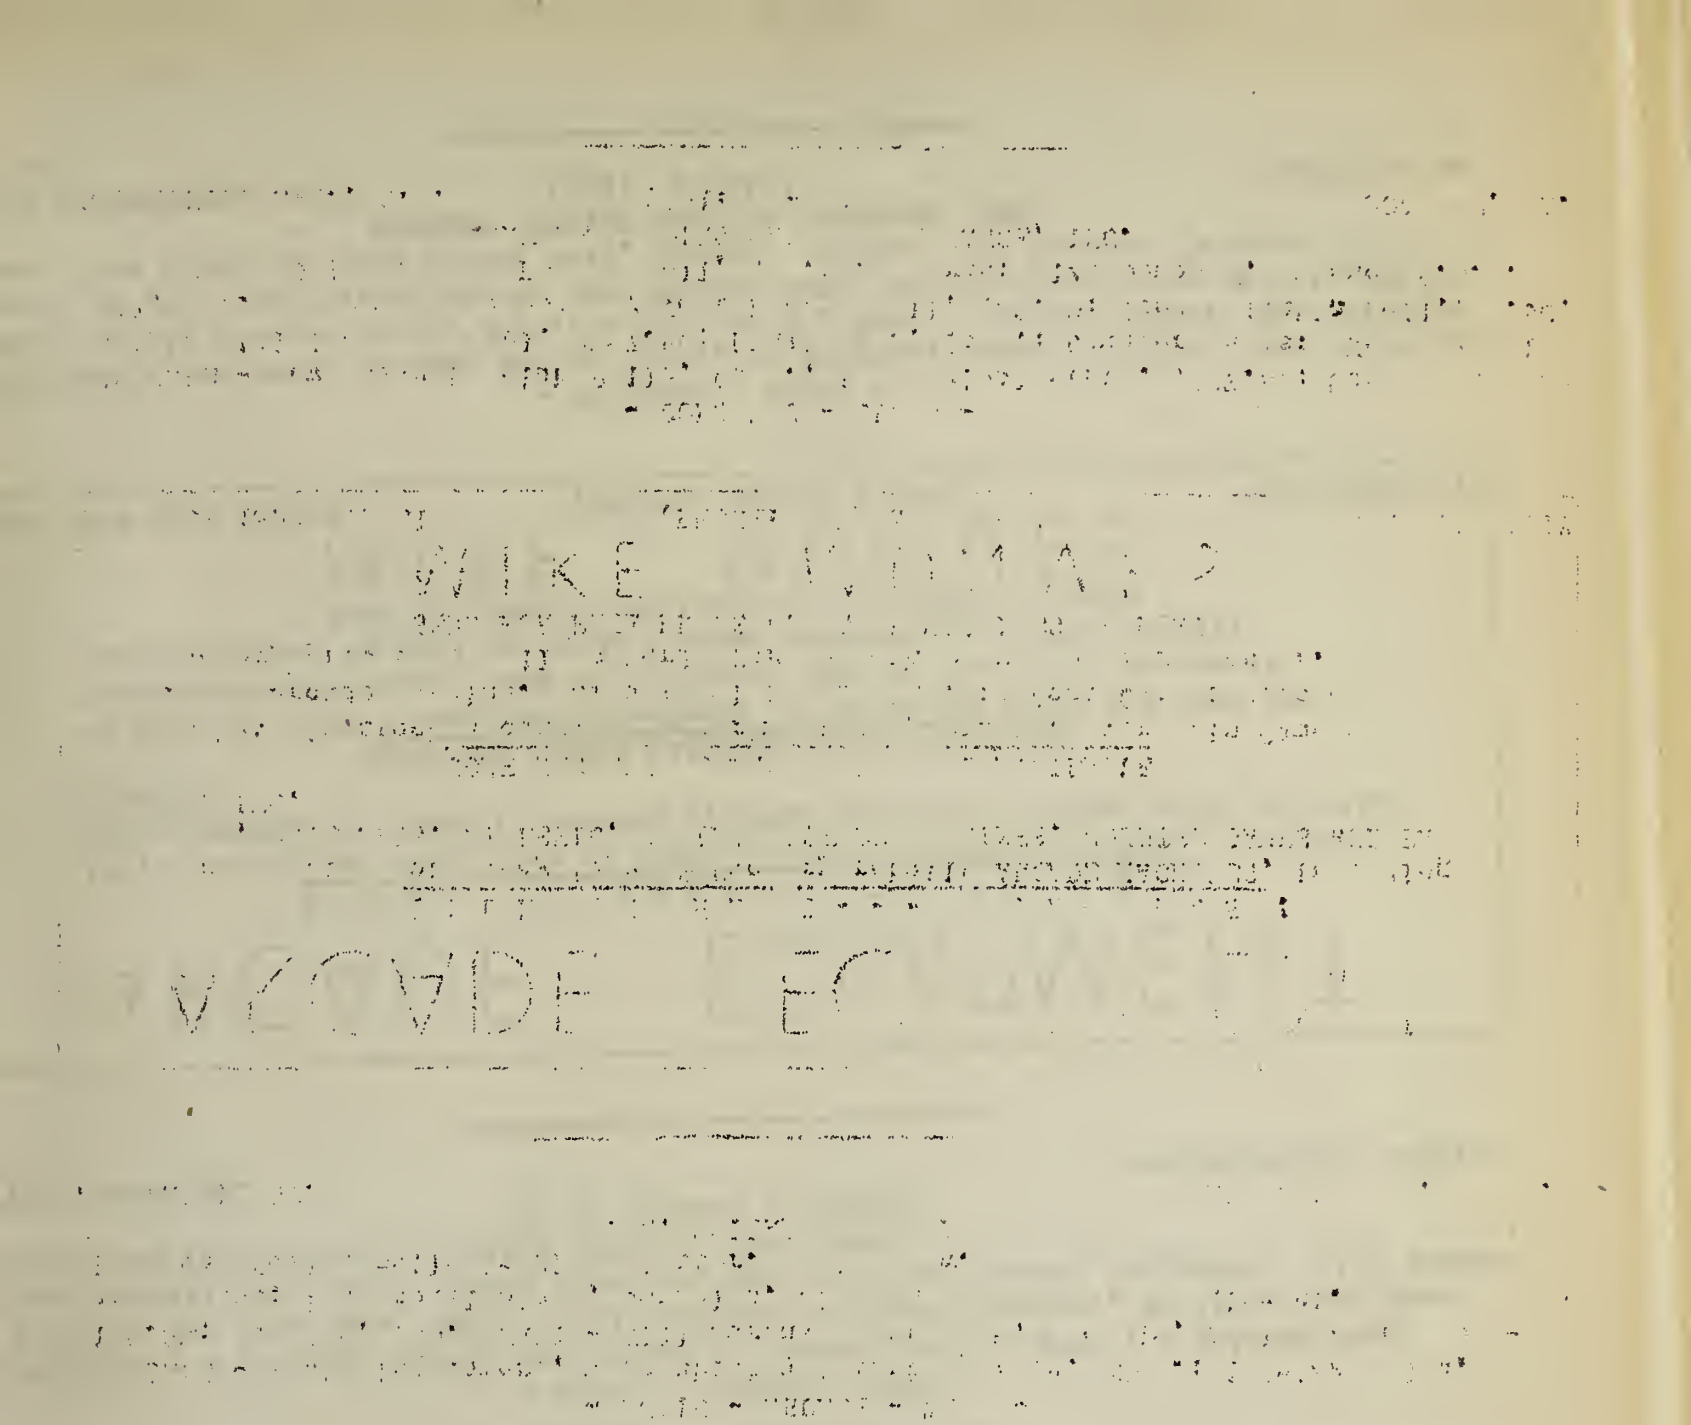
533 CENTER AVE., N.W. (Tel: 2-7418) ROANOKE, VA.



ORIGINAL MILLS BLUE FRONTS

We have secured a number of Blue Fronts in 5¢ 10¢ and 25¢ play. Most of them are 3/10 Payout. All are equipped with Milco Check Escalators and can be furnished to you with Side Mint Vendors. Some of these are painted Red Trimmed with Black and Yellow. Some are painted Blue and Trimmed with Ivory and Red. All work done at the Mills Factory. They have not been tampered with. Nor have mechanisms been removed from War Eagles or Roman Heads and placed into Blue Front Castings. This equipment is spotless. These machines have been in storage for two years. They were formerly owned by an operator who is now in the armed service, and who has just been sent overseas. He wired us to take these out of storage and send him War Bonds for his share. This is top, premium merchandise. None better to be had today regardless of what type of casting the mechanisms are enclosed in. This equipment will not last long. Wire your order with deposit at once.

5¢ PLAY.....$224.50
10¢ PLAY.....249.50
25¢ PLAY.....299.50

NOTICE: When ordering specify whether you want 3/10 Payout or 3/5 Payout, also if you wish Side Mint Vendor attached. All orders must be accompanied by 50% Certified Deposit, Balance shipped C.O.D. or S.D., F.O.B. Dallas, Texas. HURRY!! HURRY!!

NOTICE

MARCH, 1942, MARKET PRICES APPEARED IN THE SEPTEMBER 7, 1943 ISSUE. PRICES LISTED ARE CURRENT WEEK'S MARKET PRICES.

IMPORTANT

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

6—Means no prices quoted for this machine for past two weeks.
7—Means no prices quoted for this machine for past three weeks.
8—Means no prices quoted for this machine for past four weeks or longer.

OFFICE OF PRICE ADMINISTRATION
WASHINGTON, D. C.

October 13, 1943

Mr. Bill Gersh
381 Fourth Avenue
New York, New York

In reply refer to 6813:8:HOT

Dear Mr. Gersh:

This will acknowledge your letter of September 28 and its enclosed issue of "The Cash Box" and Supplement of September 7, 1943. The communication implies that some uncertainty has existed as to the status of coin-operated machine "distributors" and "operators" under the provisions of Maximum Price Regulation No. 429. We had supposed that the meaning of these provisions was made clear to you at your meeting in this Office. You were then advised that the requirements of the price control program in this industry were currently being reviewed. Until such time as a public announcement of any change is made, the regulation stands as written.

The following is the present status of each level of the coin-operated machine industry under the regulation. So that any confusion which might have resulted within the industry as a result of the article mentioned above may be immediately eliminated, we ask that you publish this letter in your next issue.

(a) The "operator," as the final purchaser of a machine, is classed as the user on that transaction. Hence, the "distributor," who sells to the "operator," is governed by the provisions of Maximum Price Regulation No. 429.

(b) An "operator" who sells machines to another "operator" is governed by the provisions of Maximum Price Regulation No. 429.

(c) An "operator" who sells a machine to a "distributor" who is buying the machine for resale is exempt from Maximum Price Regulation No. 429.

Very truly yours,

George Toomey

George Toomey, Head
Equipment and Supplies Unit
Consumer Durable Goods Branch

OPA NOW CONFIRMS THE STATEMENT WHICH WE HAVE BEEN MAKING TO YOU - THAT WHOLESALERS (FIRMS THAT BUY OR SELL FOR RE-SALE) ARE EXEMPTED FROM MPR 429 - BUT STILL REMAIN UNDER GMPR. SEE PARAGRAPH C ABOVE.
